### Sienna Orange

If you immediately picture a neon traffic cone when you think about orange, you're missing out. Cecilie Starin, a San Francisco - based interior designer, adores this rustic, burnt shade. "It adds a real warmth to rooms, while also adding a great pop to a space," she says.

## Purple

If you're looking for a classic color that's not boring, Starin says this is your hue. "Shades of purple are so pretty, yet they really stand out as different," she says. We have to agree that this color is undoubtably stylish.
